I asked LDH to please provide an update once Jacinta makes it out to the water system later this afternoon as you are still receiving calls. Mr. Falco has not made contact with me.

Thanks,
Amy

This is exactly what Mr. Falco told me today when I spoke with him. He said there was a pressure drop on Sunday, 12/11/2016, below 10 psi. He's pleading for someone to come out and inspect the water system even though he's been evicted recently and doesn't live there anymore.

Hi Jim,

Latest from state - Jacinta reported today that they have received complaints of a loss of pressure incident that occurred yesterday morning. Jacinta has a secured pressure recorder in place at the well. She plans on investigating the complaint this afternoon. The pressure recorder should tell us if a loss in pressure did occur, and if so, how significant it was. We will keep you posted on what we find.

I will follow up with Jacinta tomorrow again.

Thanks,
Amy

I spoke to Mr Falco last week and will speak with him later this week. I told him to call me back this week, I needed to speak with the state inspector and my own inspectors (so I can coordinate a joint inspection , not before X-Mas due to lose or use leave).

Hi Jerry,
Any actions or plans yet for this drinking water system that Mr. Falco continues to call about?
Just checking so I have something to report to him.

Amy, Any other updates?
Jim
